				B TARY SCIENCE					
	nature and Name of Invigilator		Seat No.						
1. (S	ignature)		(In figures as in Admit Card)						
(N	lame)	Sea	t No						
2. (S	ignature)		(I	n word	s)				
(N	[ame]	0	MR Sheet No.						
JA	N - 35218		(To be fil	led by	the Can	didate)			
	e Allowed : 1¼ Hours]		[Maxin	num M	arks : 100			
Nun	nber of Pages in this Booklet : 12		Number of Ques	tions i	n this B	ooklet : 50			
1. 2. 3.	Instructions for the Candidates Write your Seat No. and OMR Sheet No. in the space provid on the top of this page. This paper consists of 50 objective type questions. Each quest will carry twomarks. All questions of Paper-II will be compulse covering entire syllabus (including all electives, without option At the commencement of examination, the question book will be given to the student. In the first 5 minutes, you a requested to open the booklet and compulsorily examine it follows : (i) To have access to the Question Booklet, tear off in paper seal on the edge of this cover page. Do not acce a booklet without sticker-seal or open booklet. (ii) Tally the number of pages and number of question in the booklet with the information printed on the cover page. Faulty booklets due to missing page questions or questions repeated or not in ser- order or any other discrepancy should not accepted and correct booklet should be obtain from the invigilator within the period of 5 minute Afterwards, neither the Question Booklet. (iii) After this verification is over, the OMR Sheet Numl should be entered on this Test Booklet. Each question has four alternative responses marked (A), ((C) and (D). You have to darken the circle as indicated below the correct response against each item. Example : where (C) is the correct response.	tion ory, 2. ns). klet are t as 3. the he pept ons the tes. be me ber (B),	सील नसलेली कि (ii) पहिल्या पृष्ठावर तसेच प्रश्नपत्रिके पृष्ठे कमी असले क्रम असलेली वि सुरुवातीच्या 5 प्रश्नपत्रिका मार मिळणार नाही तर विद्यार्थ्यांनी नोंद	क्रमांक या पृ तरपत्रिकेचा पुर्यायी प्रश्न सर्व प्रश्न सो गासक्रमावर र्थ्याला प्रश्न र्थ्याला प्रश्न रंगपत्रिका उध नमूद केल्या ततील एकूण ततील एकूण तती व वेळही व ध्यावी. र्व पडताळू- पत्रिकेचा नंब , (C) आणि राचा रकाना	ष्ठावरील वरच्य क्रमांक त्याखाः । आहेत. प्रत्येव डविणे अनिवा आधारित आहेत प्रत्निका दिली ज वडून खालील ! नपत्रिकेवर ला । उल्लेली प्रश्नप प्रम्नाची संख प्रश्नाची संख प्रश्नाची संख प्रश्नाची संख प्रश्नाची संख प्रश्नाची संख प्रश्नाची संख प्रात्वे असलेली वर लिहावा. 5. 6. 7. 8. 9.	Your responses to the items are to be indicated in the OI Sheet given inside the Booklet only. If you mark at any pl other than in the circle in the OMR Sheet, it will not be evaluat Read instructions given inside carefully. Rough Work is to be done at the end of this booklet. If you write your Name, Seat Number, Phone Number or p any mark on any part of the OMR Sheet, except for the sp. allotted for the relevant entries, which may disclose you identity, or use abusive language or employ any other unff means, you will render yourself liable to disqualification. You have to return original OMR Sheet to the invigilator at end of the examination compulsorily and must not carry it w you outside the Examination Hall. You are, however, allow to carry the Test Booklet and duplicate copy of OMR Sheet conclusion of examination.	tace ted. 5. put 6. ace 7. our 8. fair the vith 9.	या प्रश्नपत्रिकेतील प्रश्नांची इतर ठिकाणी लिहीलेली उत्तरे आत दिलेल्या सूचना काळज प्रश्नपत्रिकेच्या शेवटी जोड जर आपण ओ.एम.आर. व नाव, आसन क्रमांक, फोन केलेली आढळून आल्यास ३ अवलंब केल्यास विद्यार्थ्यात परीक्षा संपल्यानंतर विद्यार्थ्या परीक्षा संपल्यानंतर विद्यार्थ्या परा करणे आवश्यक आहे. द्वितीय प्रत आपुल्याबरोबर	तपासली जाण नीपूर्वक वाच लेल्या कोऱ्य र नमूद केलेव नंबर किंवा न्यवा असभ्य ना परीक्षेस ड ने मूळ ओ.ए तथापी, प्रश्नप	॥र नाहीत. ॥व्यात. ल्या ठिकाणा व ओळख पटेल ॥ भाषेचा वापर अपात्र ठरविण्य एम.आर. उत्तरप श्रिका व ओ.एर्	न्चे काम करावे. यतिरीक्त इतर कोठेही अशी कोणतीही खूण किंवा इतर गैरमार्गाचा ात येईल. त्रिका पर्यवेक्षकांकडे म.आर. उत्तरपत्रिकेची गी आहे.

EARTH, ATMOSPHERIC, OCEAN & PLANETARY SCIENCE Paper II

Note : This Paper contains Fifty (50) multiple choice questions. Each question carries Two (2) marks. Attempt All questions.

Time Allowed : 75 Minutes]

		i	
1.	Among the following substances, which	3.	The largest scale of atmopheric
	is commonly used for cloud seeding :		motion is :
2.	(A) Silver Iodide	4.	(A) Mesoscale
	(B) Sand		(B) Local scale
	(C) Black carbon		(C) Planetary scale
	(D) Copper sulphate		(D) Urban scale
	This process pertains to heating or		In seismology, the moment magnitudes are calculated by :
	cooling in gases due strictly to their		
	expansion and contraction :		(A) Slip amount × Modulus ofElasticity
	(A) Advection		(B) Shear Modulus × (P-S Wave
	(B) Deflation		Velocity)
	(C) Adiabatic		(C) Slip × Area × Elastic Modulus
	(D) Sublimation		(D) (P-S arrival) × Amplitude
		3	[P.T.O.

[Maximum Marks : 100

- 5. Which of the following group displays highest lateral extent in Cuddapah Basin ?
 - (A) Nallamalai
 - (B) Kistna
 - (C) Cheyair
 - (D) Papaghani
- The Siwalik sequence represents the fluvial deposition of the Himalayan foreland basin while the marine sequence is marked by :
 - (A) Subathu Formation
 - (B) Murree Formation
 - (C) Kasauli Group
 - (D) Pinjor Formation
- 7. Stratigraphic position of Lameta Beds is :
 - (A) Inter trappeans
 - (B) Infratrappean
 - (C) Epitrapean
 - (D) Post-trapean

- 8. The Mesoproterozoic rift-valleys, Mahandi and Pranhita-Godavari are equated with Lambert rift of Antarctica and Unita rift of North America is supposed to be indicative of :
 - (A) Fragmentation of Columbia
 - (B) Fragmentation of Pannotia
 - (C) Fragmentation of East and West Gondwana
 - (D) Collision of East & West Gondwana
- 9. The high grade metamorphic rocks are brought over the low grade metamorphic rocks of Lesser Himalaya by a major thrust called :
 - (A) Main Boundary Thrust
 - (B) Lesser Himalayan Thrust
 - (C) Indus Suture Zone
 - (D) Main Central Thrust
- 10. The Krol-Tal boundary in the Lesser Himalaya represents :
 - (A) Neoproterozoic Cambrian transition
 - (B) Cambro Ordovician boundary
 - (C) Cretaceous Tertiary boundary
 - (D) Jurassic Cretaceous boundary

- 11. What is the age of most of sandstone reservoir rock in the Cambay Basin ?
 - (A) Oligocene
 - $(B) \ Eocene$
 - (C) Miocene
 - $(D) \ \ Palaeocene$
- 12. Petroleum is formed from oceanic organisms that have large component of.....and therefore less oxygen per carbon than the $C_6H_{10}O_5$ of carbohydrates found as three major component of land plants :
 - $(A) \ \ pepofine$
 - (B) lipid
 - (C) fulvic acids
 - (D) amino acids
- Construction of dams, levees and other channel improvement structures used for flood control are categorized as :
 - (A) Non-structural approach
 - (B) Structural approach
 - (C) Curvilinear approach
 - (D) Staggened approach

- 14. It is customary to describe common pyroxenes in terms of four end members : diopside, hedenbergite, enstatite,
 - (A) ferrosilite
 - (B) ferropericlase
 - (C) faylite
 - (D) jadite
- 15. The core mantle boundary occur at the depths of :
 - (A) 3900 km
 - (B) 5500 km
 - (C) 2900 km
 - $(D) \ 1200 \ km$
- 16. The ionospheric magnetic field is because of :
 - (A) Hydrogen ions fusion
 - (B) He bombardment on Na
 - (C) Solar winds
 - (D) Fluctuation in Geomagnetic fields

- 17. The average rock density of continental crust and the oceanic crust respectively are :
 - (A) 3.7 gm/cm^3 and 2.7 gm/cm^3
 - (B) 8 gm/cm^3 and 12 gm/cm^3
 - (C) 2.7 gm/cm^3 and 3 gm/cm^3
 - (D) $2{\cdot}7~\text{gm/m}^3$ and $3{\cdot}5~\text{gm/m}^3$
- 18. The surface waves for which the motion occurs in the direction of propogation and perpendicular in phased pattern are called :
 - (A) L-wave
 - (B) Rayleigh wave
 - (C) P-wave
 - (D) S-wave
- 19. Richter scale gives an idea of the amount of energy released during an earthquake and is based on the.....of seismic waves at a distance of......km from the epicenter :
 - (A) Amplitude and 100 km
 - (B) Motion and 200 km
 - (C) Epicenter and 300 km
 - (D) Velocity and 400 km $\,$

- 20. The lower mantle is considered by most to be made up of three phases, Mg-pervoskite, Ca-pervoskite and
 - (A) Ringwoodite
 - (B) Ferropericlare
 - (C) Mg-wusfite
 - (D) Maforite
- 21. Seismicity is at very high frequency at which of the following compound to the others :
 - (A) MORB
 - (B) Extensional plate contacts
 - (C) Subduction zones
 - $(D) \ \ Volcanoes$
- 22. The difference in arrival times of P and S wave increases with distance while the ratio of P and S wave velocities :
 - (A) Remains same
 - (B) Decreases logarythmically
 - (C) Decreases linearly
 - (D) Increases periodically

- 23. The water discharged through streams consisting wholly or in part of water contributed by overland flow and groundwater flow is called :
 - (A) Precipitation
 - (B) Runoff
 - (C) Transpiration
 - (D) Evaporation
- 24. Which of the following is *not* part of a hydrologic cycle ?
 - (A) Water infiltrating into the soil and bed rock
 - (B) Water evaporating from a lake
 - (C) Calcium carbonate dissolving in soil water and ground water
 - (D) Water moving into crecks and streams following a rain

- 25. A saturated but relatively permeable material that *does not* yield appreciable quantities of water of wells is :
 - (A) Aquiclude
 - (B) Aquifuge
 - (C) Aquitard
 - (D) Aquifer
- 26. An aquifer bound by one or two aquitards is called as :
 - (A) Artesian aquifer
 - (B) Leaky aquifer
 - (C) Unconfined aquifer
 - (D) Perched aquifer
- 27. A layer of water bearing pervious material that is sandwiched between two clay layers is called :
 - (A) Unconfined aquifer
 - (B) Confined aquifer
 - (C) Semi-unconfined aquifer
 - (D) Semi-confined aquifer

- 28. The rock formation that can hold, transmit and yield water is called :
 - (A) Aquiclude
 - (B) Aquitard
 - (C) Aquifuge
 - (D) Aquifer
- 29. The single largest bedded type barite deposit located in Andhra Pradesh is :
 - (A) Guntur
 - (B) Hyderabad
 - (C) Mangampetta
 - $(D) \ \ Nellore$
- 30. Kimberlite and lamproite pipes are explored for :
 - (A) Diamond
 - (B) Beryl
 - (C) Corundum
 - (D) Quartz

- 31. Kepler's Second Law of planetary motion states that orbital radius of a planet sweeps out :
 - (A) Equal area in equal orbits
 - (B) Larger area in smaller orbits
 - (C) Equal areas in equal interval of time
 - (D) Smaller area in larger time interval
- 32. Sampling the same place with seismic waves arriving from different directions and producing the anomalies is the basic principle of :
 - (A) Seismic Inversion
 - (B) Seismic Tomography
 - (C) Seismic Reflection
 - (D) Seismic Refraction

- 33. A cylinder of length 'L' and diameter
 'D' when subjected to a tensile stress
 parallel to L would be elongated in
 length, but the same time shortened
 in diameter and is expressed by :
 - (A) Rigidity Modulus
 - (B) Poisson's Ratio
 - (C) Stretching Constant
 - (D) Tensile Strength
- 34. Aluminium saturation index determines whether a rock is metaaluminous or peraluminous, the peraluminous rocks contain aluminous minerals including muscovite, garnet sillimanite and ...
 - (A) Cordierite
 - (B) Coesite
 - (C) Covanzite
 - (D) Comingtonite

- 35. The composition of sapphire is :
 - (A) Al₂O₃
 (B) CaTiO₃
 (C) Al₂SiO₅
 - $(D) Al_2(OH)Si_2O_7$
- 36. Find the odd one out :
 - (A) Omphacite Eelogite
 - (B) Glaucophane Blue schist
 - (C) Laumontite Zeolite
 - (D) Hypersthene Greenschist
- 37. Which of the following are the typical marine biogenic sediment types ?
 - (A) Pelagic muds & turbidites
 - (B) Calcareous Ooze & SiliceousOozes
 - (C) Calcareous sandstone and sandy limestone
 - $(D) \ none \ of \ the \ above$

- 38. There are different types of coal. Two of them release a great deal of pollutants into the air whereas the third releases less smoke is considered to be less polluting. Name the less polluting type of coal :
 - (A) Lignite
 - (B) Anthracite
 - (C) Bituminous
 - (D) Sub-bituminous
- 39. Which of the following minerals is a ring silicate ?
 - (A) Pyrophyllite
 - (B) Enstatite
 - (C) Forsterite
 - (D) Tourmaline
- 40. Thick deposits of homogeneous, wind transported unstratified silt in middle latitudes is generally known as :
 - (A) Ergs
 - $(B) \ Loess$
 - (C) Eolianite
 - $(D) \ Draas$

- 41. Stream competence primarily depends up :
 - (A) Amount of suspended load
 - (B) Water temperature
 - (C) Channel shape
 - (D) Flow velocity
- 42. Hydrograph is a graph of discharge plotted against :
 - (A) Channel width
 - (B) Channel depth
 - (C) Channel velocity
 - (D) Time
- 43. A blind valley is a type of :
 - (A) Glacial Valley
 - (B) Karst Valley
 - (C) Rift Valley
 - (D) Intermontane Valley

44.	Match the following :		47.	A middle-latitude cell in the 3-cell		
	Type of Coral	Properties		model of the general circulation :		
	Reef			(A) Hadley Cell		
(<i>a</i>)	Barrier reef (<i>i</i>)	Attached to		(B) Polar Cell		
		coast		(C) Storm Cell		
(<i>b</i>)	Fringing reef (<i>ii</i>)	Separated		(D) Ferrel Cell		
		from the coast	48.	The average earth surface		
(<i>c</i>)	Atoll (<i>iii</i>)	Encloses		temperature :		
		a central		(A) 28°C		
		lagoon		(B) 32°C		
	(A) (<i>a</i>)–(<i>ii</i>) (<i>b</i>)–(<i>i</i>)	(<i>c</i>)–(<i>iii</i>)		(C) 15°C		
	(B) (<i>a</i>)–(<i>iii</i>) (<i>b</i>)–(<i>i</i>)	(<i>c</i>)–(<i>ii</i>)		(D) 5°C		
	(C) (<i>a</i>)–(<i>i</i>) (<i>b</i>)–(<i>ii</i>)) (<i>c</i>)–(<i>iii</i>)	49.	The height (above mean sea level)		
	(D) $(a)-(i)$ $(b)-(iii)$ $(c)-(ii)$ Which one of the following is a landform created by wave erosion (as opposed to deposition) ?			corresponding to the atmospheric pressure 500 hPa will be close to :		
45.				(A) 1.5 km		
				(A) 1.5 km (B) 18 km		
	(A) Spit					
	(B) Sea arch			(C) 5.5 km		
	(D) Sea arch(C) Tombolo(D) Estuary		50.	(D) 10.2 km		
				The pressure gradient force acts from :		
46.	The presence of which one of the			(A) High pressure region to low		
	following would indica			pressure region		
	or uplift of land :			(B) Low pressure region to high		
	(A) An estuary			pressure region		
	(B) An elevated marine terrace			(C) Higher latitudes to lower		
	(C) A tombolo			latitudes		
	(D) Coastal dune			(D) West to East
